SUMMARY

Full Stack Developer specializing in the MERN stack, with experience building end-to-end web applications featuring authentication, real-time communication, and scalable backend systems. Proficient in designing REST APIs, managing databases, and deploying production-ready applications. Passionate about solving real-world problems and enhancing applications with modern AI integrations.

PROJECTS

Doctor Appointment Booking System

- React | Node.js | Express | MongoDB | Stripe
- Developed a full-stack appointment booking platform with role-based authentication for patients, doctors, and admin.
- Implemented secure login, appointment scheduling, and dashboard management for handling bookings and profiles.
- Integrated online payment gateway to enable seamless appointment fee transactions.
- Built scalable REST APIs and responsive UI ensuring smooth user experience and efficient backend operations.

AI Resume Builder

- React | Node.js | MongoDB | Google Gemini API | ImageKit
- Built an AI-powered resume builder with user authentication, live preview, and shareable resume links.
- Integrated Google Gemini API to generate and optimize resume content with intelligent suggestions.
- Implemented features to create, edit, and manage multiple resumes with customizable templates.
- Enabled image upload and background removal using ImageKit for enhanced personalization.

Social Media Web Application

- React | Node.js | MongoDB | Clerk | Inngest | Socket.IO
- Developed a full-featured social media platform with authentication, profile management, and dynamic user interactions.
- Implemented real-time chat and messaging using Socket.IO along with post and feed functionality.
- Built features including follow/unfollow, friend requests, and user search for enhanced engagement.
- Integrated background job processing using Inngest for efficient handling of asynchronous tasks.
- Optimized media storage and delivery using ImageKit for fast and high-quality content rendering.

EXPERIENCE

CodeSquad Website Development (University Project)

- Collaborated with a team of students to build and maintain the university CodeSquad website.
- Contributed to frontend development using modern web technologies.
- Assisted in implementing responsive UI components.

EDUCATION

B.Tech. (CSE) - 8.48 CGPA

Central University of Kashmir

📅 2022 – 2026

📍 Ganderbal, Kashmir

Primary & Secondary Education - Grade A+

The Mallinson School

📅 2006 – 2020

📍 Srinagar, Kashmir

TECHNICAL SKILLS

- **Languages:** JavaScript, Python, SQL, Java
- **Frontend:** React.js, HTML, CSS, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, Authentication (JWT)
- **Database:** MongoDB, Mongoose
- **Tools & Platforms:** Git, Docker, Postman, Vercel, Render
- **Additional:** Socket.IO, API Integration, Basic AI Integration (LLMs)
- **Core Concepts:** Data Structures & Algorithms, OOP, Client-Server Architecture

LANGUAGES

- English (Professional Proficiency)
- Hindi / Urdu (Native Proficiency)
